## Academic Profile

---

I am a Lecturer in Applied Mathematics and Programme Director for the MSc in Mathematics at the University of Hull, with research and teaching responsibilities. My research lies at the interface of *Statistics*, *Optimization*, *PDEs*, and *Variational Methods*. I am interested in both the theoretical foundations of these areas and their applications to *Mathematical Imaging*, *Materials Science*, *Sports Analytics*, and *Machine Learning*. I am a *Fellow of the Higher Education Academy* and have taught courses across pure and applied mathematics. I have also supervised undergraduate and postgraduate students. For any queries, please contact me by email.
